The only character I play so far I can basically get what I had to pay for on the 360 back in the day. Wish all fighting games would be sold like this.. I already bought her on PS3 PS4

and idk why I did buy this again on PC

Did I love her ?. Useless, she is so slow she was kicked out of the kitchen.. Hitomi is a fighter that has a good balance of speed and power, though perhaps leaning slightly more towards power. No frills, no fancy stances, just a good ol' fashioned powerful beatdown.

In terms of fanservice, she is actually rather tame. As the screenshots show, her default costume is a tanktop that shows some midriff, gloves, shoes and full jeans. Her second one is the same, but also has a zipped-up varsity jacket on top. She does have some more fanservice-y costumes available as well (some are available from the start, others are unlocked and she does get some more in the DLC costume packs), but she is surprisingly modest for Dead Or Alive, a trait she has had even in previous titles. Her DOA4 outfit is included in this DLC too, but it needs to be unlocked first.

If you are unsure, she is both an opponent and playable in the storyline, so if you have that DLC you can try her out there.

As someone who mained Hitomi in DOA4, I'm annoyed she wasn't in the free portion of this game, but I am glad to see her return.

Her English VA is kinda cringy, though. Mind you, that's an universal problem in DOA5, it seems.

Edited on 27/10/17 in order to fix some grammatical errors that slipped through during the initial writing. I really like her!
