Played through this game once last year, and I found myself coming back to play with Corvo. After that I decide to do a Ghost run with Emily. There's lots of replayability. I love collecting money and high valued items. I love exploring and listening to peoples conversations before I Domino enemies with sleep darts.

This game is a lot better than Dishonored 1, imo. I liked Dishonored but literally everything in Dishonored 2 is totally amped up.

I highly recommend this game. Bad game, bad graphics, you need to pay to get things. I tried this game to play with my friend (PS4) and we started joking around about how terrible the game looked. I don't recommend. This game is TRASH!. Fun game to pass the time with if your waiting for an update or if you're downloading something. TL;DR - it's a cheap asset flip game that lasts for 5 or 6 unmemorable levels, and the game gives you no reason to explore any of them.

There are a few collectibles to grab - 3 stars in each level, coins, and gems. All of these only earn you points, which doesn't matter since the game doesn't save high scores. The game also doesn't save what you've collected, or what levels you've completed, or anything at all. You have to start the game over from scratch each time you choose to play.

There's some janky stuff, and it's all pointless, but somehow I came away almost feeling neutral about the game. That may be because I only spent 50 cents.. This is the saddest game I've ever played. I appreciate other user's honesty, the 8th day is truly a lonely place that we all navigate. If you play this game please answer the first question truthfully.. It's a fine game, but crashes are quite frequent.

very hard to play just building 4 post took alot of time and alot of camera adjustments very few tools to make building easier i love bridge building games and this one frustrates me like no other. In the other side, I like this game. But Milestone didn't learn from past. Graphic look worst than previous game, more blurry in my screen and rider animation really bad. I hope Milestone release a patch to fix them.. This puzzle game is tougher than woodpecker lips bub.. Old version was better, there are still the same bugs, but the worst is car physic. Better get yourself old, classic version or something like that. Milestone nailed this one. Great arcade feel. Fun to race, Plenty of bonus cars that have their own individual feel. I haven't had this much fun just starting this title in a long time. I have a NVIDIA GTX970 with 16 GB of Ram i7-2600 at 3.4 GHz. I had to tweek the video setting when I first started up the game. I'll make it a point to put them in this review within a few days, although I may get it done this evening. Even if you like simulation gaming you may still may enjoy this game.. it was short, the guns were not worth it, and there was almost no new content.. This game is so simple and yet so addicting! The light humour is great, the artwork and animation is beautiful and I really love the soundtrack. The controls are slick and the game allows for some tight and reflex-intensive matches and I love all of it! 5/5!!!. What else needs to be said about a puzzle game that is so free formed? Don't change a thing about this one. If you want to kill some time while using your brain, this game is for you.. So, let\u2019s see what we\u2019ve got here..

\u2714\u2714 Story in a verse
\u2714\u2714 Wonderland in VR
\u2714\u2714 Battles
\u2714\u2714 Mysterious
\u2714\u2714 Nice arts

Could tell that it\u2019s the best visual interactive novel for VR-platforms, but it seems, that it\u2019s the only one, cause i've no idea, what else can be closer to VN genre and + adapted for VR. Deserved to be recommend to try if you\u2019re ok with Alice, Wonderland, so on... Dark as hell
